

Precision, Quality...and Patented Engineering!

Fork Tube Lifter Series

The Fork Tube Lifter Series from Bayne Premium Lift Systems enables residential pick-up on a rural commercial front-loader route. Now haulers can operate one truck for these distant locations resulting in a reduction of total fleet cost. Lifters can be manually operated, requiring no controls or routing of lines, or they can be pneumatically operated for ease of use.

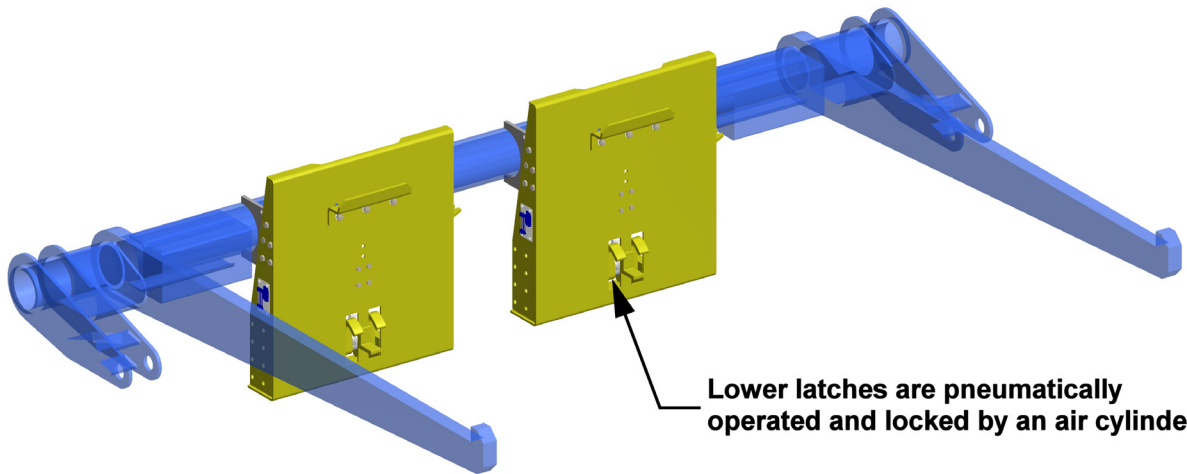

Features

- Handle commercial and residential pickups with a single truck
- Lower latches can be manually operated or pneumatically controlled
- No hydraulic tap-in required
- Does not interfere with commercial pickups
- Compatible with ANSI Type B domestic style two-bar carts
- Powder-coated finish for durability
- One-Year Limited Warranty

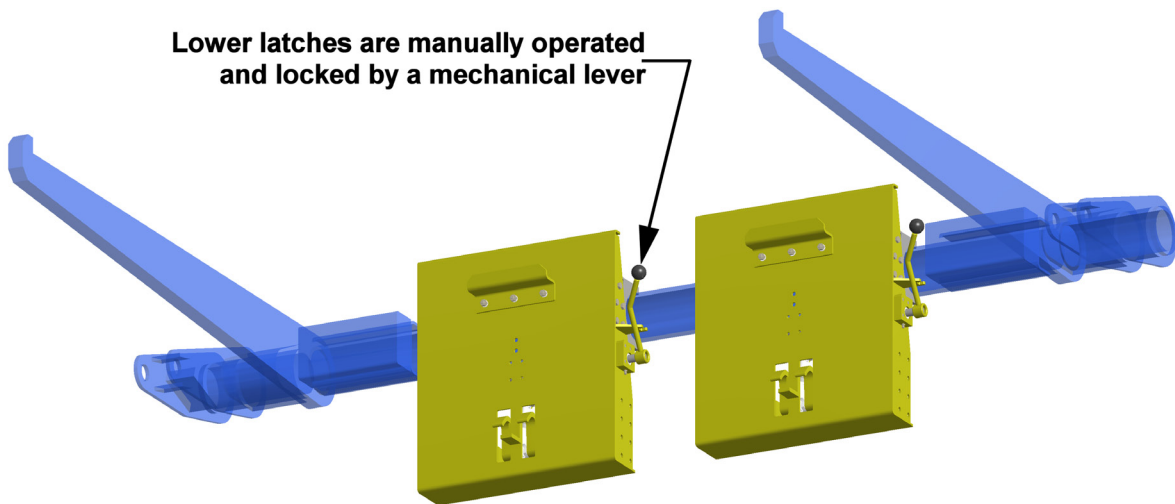

For information or to order, call toll-free 800-535-2671 or visit us at www.baynethinline.com.

Fork Tube Lifter Series

Lower latches are manually operated and locked by a mechanical lever
